

Grand River Technical School
Chillicothe, Missouri

Automation and Electrical Technology

Companies throughout the world are rapidly automating their manufacturing processes in order to be more competitive in the global economy.

Automation is a key requirement in order to produce the quality of product and speed of delivery demanded by today's consumers. As a result, a large number of technicians who have education and training in the field of industrial automation technology are in high demand.

Automation and Electrical Technology will prepare you for employment in schools, hospitals, manufacturing facilities, building complexes and residential, commercial and industrial construction.

- 1 year certificate
- Articulation Agreement with multiple colleges
- 2 year AAS degree
1+1 with NCMC
